**DETAILED ACTION**

***Response to Amendment***

1. Claims 1-6 and 8-38 are pending in the instant application and have been examined. Consideration of the latest amendment, filed December 12, 2006, serves as the basis for this Office Action.

2. The indicated allowability of claim 27 is withdrawn in view of the newly discovered reference(s) to Leighton, US 5,949,885. Rejections based on the newly cited reference(s) follow.

***Terminal Disclaimer***

3. The terminal disclaimer filed on December 12, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,683,958 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 27 is rejected under 35 U.S.C. 102(b) as being anticipated by Adelson, US 4,939,515

Adelson teaches a method for modifying a host signal to contain auxiliary information symbols (Abstract), wherein said modifying comprises: providing an information carrier signal in accordance to one or more features of said host signal (col. 3 lines 25-55), determining a value of an auxiliary information signal representing an information symbol (col. 3 lines 25-55), generating a host modifying signal by applying a fixed gain to said information carrier signal in accordance with said auxiliary information symbol (col. 4 lines 1-38); and applying said host modifying signal to said host signal to produce a stego signal (col. 4 lines 1-38).

***Allowable Subject Matter***

6. Claims 1-6 and 8-26 are allowed.

7. Claims 28-38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
